

Revision

Revision on relationship between circumference and diameter of circle

Circumference (C)	Diameter (D)	$C \div D$
31.4 cm	10 cm	?
62.8 cm	20 cm	?
?	15 cm	3.14
78,5 cm	?	3.14
?	12.5 cm	3.14
21.98 cm	?	3.14

Formulae:

$$\frac{C}{D} = \pi$$
$$\frac{C}{\pi} = D$$
$$C = \pi \times D$$
